a
Parametric law (v2)
Cell variance explained 95%
Observed failure rate
Predicted failure rate
Air-temperature regression
Neighbour regression
Interpolation or climatology
30-day gap
60-day gap
90-day gap
b
Training-year replay (empirical comparator)
Cell variance explained 99%
Observed mean signed error (°C)
Predicted mean signed error (°C)
c
Controlled gaps
Real calendars
Observed failure rate
Predicted failure probability (v2)
