a What makes donors informative
subsurface contact time
drainage area (log)
upstream storage (log)
baseflow index
site elevation
basin slope
−0.4
−0.2
0.0
0.2
0.4
Spearman ρ with donor synchrony
b Groundwater-influenced basins
donor synchrony
mean absolute error (°C)
0.70
0.218
0.70
0.235
0.59
0.201
low BFI (n=47)
middle BFI (n=46)
high BFI (n=47)
c Why: a damped regime is a smaller target
mean annual peak (°C)
interannual SD of the peak (°C)
22.7
0.98
21.0
0.93
18.1
0.76
low BFI
middle BFI
high BFI
